Generative Knowledge Assist

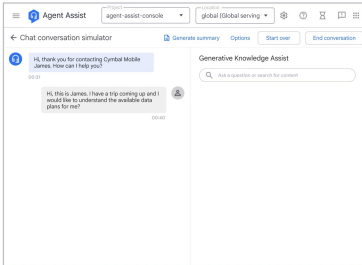

The screenshot displays the 'Agent Assist' console interface. At the top, there is a header bar with a menu icon, the 'Agent Assist' logo, and two dropdown menus for 'Project' (set to 'agent-assist-console') and 'Location' (set to 'global [Global serving]'). To the right of these are icons for settings, help, a timer, a chat bubble, and a list icon.

Below the header, the main area is titled 'Chat conversation simulator'. It includes a 'Generate summary' button, an 'Options' link, and two buttons: 'Start over' and 'End conversation'.

The chat area on the left shows a conversation between a system (blue bubble) and a user (gray bubble). The system message says: 'Hi, thank you for contacting Cymbal Mobile James. How can I help you?' with a timestamp of '00:01'. The user message says: 'Hi, this is James, I have a trip coming up and I would like to understand the available data plans for me?' with a timestamp of '00:00' and a user icon.

On the right side, there is a panel titled 'Generative Knowledge Assist'. It features a search bar with a magnifying glass icon and the placeholder text 'Ask a question or search for content'.

To the right of these are icons for settings, help, a timer, a chat bubble, and a list menu.

Below the header, the main area is titled 'Chat conversation simulator'. It includes buttons for 'Generate summary', 'Options', 'Start over', and 'End conversation'. The chat area shows a conversation between a user (represented by a blue question mark icon) and an assistant (represented by a person icon). The user's message is: 'Hi, thank you for contacting Cymbal Mobile James. How can I help you?' (timestamp 00:01). The assistant's response is: 'Hi, this is James, I have a trip coming up and I would like to understand the available data plans for me?' (timestamp 00:00).

On the right side of the chat area, there's a 'Generative Knowledge Assist' section. It features a search bar with the text 'Available data plans for travel abroad'. Below the search bar, a result is displayed, highlighted with a red border. The result is titled 'Cymbal Mobile TravelPass' and includes a 'Source' link labeled 'Prepaid TravelPass'. There are also icons for a document and a link to the right of the title.

Generative Knowledge Assist

The screenshot displays the 'Agent Assist' console interface. At the top, there's a header with a menu icon, the 'Agent Assist' logo, and dropdown menus for 'Project' (set to 'agent-assist-console') and 'Location' (set to 'global [Global-serving]'). To the right of these are icons for settings, help, a timer, a chat bubble, and a list icon.

Below the header, the main area is titled 'Chat conversation simulator'. It includes buttons for 'Generate summary', 'Options', 'Start over', and 'End conversation'. The chat history shows three messages:

- 00:01: A blue bubble from the assistant: "Hi, thank you for contacting Cymbal Mobile James. How can I help you?"
- 00:02: A grey bubble from the user: "Hi, this is James, I have a trip coming up and I would like to understand the available data plans for me?"
- 00:03: A blue bubble from the assistant: "Okay, I can definitely help you with that. Let me take a look here. It looks like Cymbal Mobile offers a prepaid travelpass that allows customers to choose from current 4G or 5G devices and stay connected while they travel. Does that sound good?" This message is highlighted with a red rectangular border.

On the right side of the interface, there's a 'Generative Knowledge Assist' panel. It features a search bar with the placeholder text 'Ask a question or search for content'. Below the search bar, a knowledge card is displayed for 'Cymbal Mobile TravelPass'. The card includes a source link 'Prepaid TravelPass' and icons for a document and a refresh button.

← Chat conversation simulator: Italo live transcription test

Hi, my name is Italo and I'm calling because I'm having trouble with my internet connection. It's been intermittent for the past few days, and I've tried to restarting my router several times, but it hasn't helped. Could you please check if there's an issue on your Android guide me through any additional troubleshooting steps. I really need to get this resolved as soon as possible since I work from home.

01:15

Hi, Hello, I'm sorry to hear about your internet issues. I'll start by checking for any outages or issues on our end that could be causing the intermittent connection. If everything looks fine from our side, I'll grab you through some additional troubleshooting steps to try and resolve the problem. I understand the urgency since you work from home. So let's get this fixed as soon as possible.

Useful as captions.

The screenshot displays the 'Agent Assist' interface. At the top, there's a header with a menu icon, the 'Agent Assist' logo, and two dropdown menus: 'Project' (set to 'agent-assist-console-de...') and 'Location' (set to 'global (Glo...'). Below the header, a back arrow and the title 'Chat conversation simulator: Italo live transcription test' are visible. The main area shows a chat log. The first message, from a user (Italo), is in a light gray bubble and describes an internet connection issue. The second message, from the agent (Agent Assist), is in a blue bubble and offers assistance. A timestamp '01:15' appears between the messages. At the bottom, a status bar indicates 'Switched to voice assist. Dial (413) 853-8817'.

Agent Assist

Project: agent-assist-console-de... Location: global (Glo...)

← Chat conversation simulator: Italo live transcription test

Hi, my name is Italo and I'm calling because I'm having trouble with my internet connection. It's been intermittent for the past few days, and I've tried to restarting my router several times, but it hasn't helped. Could you please check if there's an issue on your Android guide me through any additional troubleshooting steps. I really need to get this resolved as soon as possible since I work from home.

01:15

Hi, Hello, I'm sorry to hear about your internet issues. I'll start by checking for any outages or issues on our end that could be causing the intermittent connection. If everything looks fine from our side, I'll grab you through some additional troubleshooting steps to try and resolve the problem. I understand the urgency since you work from home. So let's get this fixed as soon as possible.

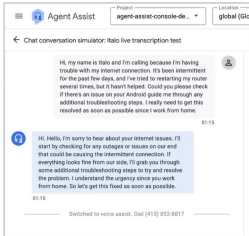

01:15

Switched to voice assist. Dial (413) 853-8817

Thanks, I'm checking your return status. Looks like the item has been received on our end. It will take 3-5 days for the refund to process.

Translated
Merci, je vérifie le statut de votre retour. Il semble que l'article a été reçu de votre côté. Le remboursement sera traité dans un délai de 3 à 5 jours.

08:34

Customer
D'accord, sera-t-il remboursé sur ma carte de crédit ou ma carte cadeau ?

Translated
Okay, will it be refunded to my credit card or gift card?
